

## **Extracurricular Activities Policy**

At LATAM Global School (LGS), we offer our student community a variety of activities designed to foster socialization, a sense of belonging, and integration within the school community. These extracurricular activities are detailed in the school calendar, which is provided to new students during enrollment and to regular students at the beginning of each year to keep them informed about the programming.

### **Special Activities**

At LGS, we organize special activities for each educational level, from elementary to high school, where middle and high school students participate together. These activities are designed to promote student interaction through games, contests, and discussions on relevant topics. We celebrate special events such as Halloween, Thanksgiving, Science Week, Spirit Week, and International Week, among others. These activities are not only directed at students but are also open to the entire school community, including parents and representatives, who are welcome to participate.

### **Esports**

We offer a monthly space for students to play video games and compete with each other and with the LGS esports staff. Each month features a different game, providing students with a fun and competitive extracurricular activity.

### **Open House/Parent Meetings**

We hold monthly parent meetings to provide representatives and students with a space where they can talk with the school staff about their experiences, questions, and receive guidance. These meetings also allow parents to share testimonies and strategies to support their children's virtual education. Additionally, LGS staff offer tools and strategies to help in the learning process, organization, and achievement of goals in a virtual environment.

### **Workshops**

We conduct workshops with professional speakers in various fields. These workshops allow students and parents to learn about different professions and skills, providing a practical and enriching insight into various areas of interest.

These activities not only enrich our students' educational experience but also strengthen the sense of community and belonging at LATAM Global School, creating a dynamic and inclusive educational environment.
