

Policy on LGS Expectations Toward Parents and Guardians

At LATAM Global School, we believe that close collaboration between the school and families is essential for the academic and personal success of our students. This policy outlines the expectations LGS has for parents and guardians, highlighting their crucial role in supporting and guiding their children throughout their educational journey. Through these expectations, we seek to ensure an effective partnership that promotes the holistic development of students.

- **Support at Home:** Parents are expected to assist their children with assignments and reinforce a sense of organization and responsibility to help them meet their academic goals.
- **Adequate Study Spaces:** Parents should create suitable study spaces at home to facilitate their children's concentration and academic progress.
- **Supervision of Tutoring Sessions:** For elementary students, parents are encouraged to be nearby during tutoring sessions. For students with special educational needs, parents are expected to be present during tutoring sessions to provide the best possible support.
- **Provision of Technological Tools:** Parents must provide their children with the necessary technological tools to ensure an uninterrupted learning process.
- **Effective and Respectful Communication:** Parents must maintain effective and respectful communication with school staff, following the netiquette guidelines established in our communication policies.
- **Documentation:** Parents or guardians are expected to submit all required documentation to the admissions department within the deadlines set by the school.
- **Updating Information:** Parents should keep all relevant information about the student up to date. Any changes in contact information, health status, special educational needs, or other pertinent information must be communicated to the school through the available communication channels.
- **Timely Payments:** Parents must keep up with monthly payments to avoid interrupting their children's learning continuity.

Active parental participation in the LATAM Global School community is vital for the students' educational success. Through this policy, we aim to ensure effective collaboration and a supportive environment between the school and families. We invite all parents and guardians to get involved and take advantage of the participation opportunities we offer, thereby strengthening the educational community of LGS.
