

Policy on LGS Expectations Toward Students

At LATAM Global School, we believe that the academic success of our students largely depends on their commitment and responsibility. Therefore, we have established a series of clear expectations that all students must meet to ensure a productive and respectful educational environment. Below are the expectations LGS has for its students:

- Students must complete all activities, projects, and exams for each course, maintaining a consistent pace of progress.
- Students are expected to manage their time effectively and organize themselves to complete courses within the recommended time frames set by the school.
- Students must communicate proactively about any difficulties that may affect their academic performance, seeking support when necessary.
- Students must adhere to the [Academic Integrity, Plagiarism, and AI Use Intelligence Policy](#) in all their work, projects, and exams. This includes avoiding plagiarism, the inappropriate use of artificial intelligence (AI), and any other form of academic dishonesty.
- Students are expected to maintain appropriate and respectful behavior towards all school members and peers, following the guidelines of our [Policy on Cyberbullying, Harassment, and Discrimination](#).
- Students must use the school email and technological tools provided by the school responsibly and for their intended educational purposes.
- Students must protect their personal information and that of others and should not share their platform access credentials, school email, or any applications provided by the school with third parties.

These expectations are designed to foster a safe, respectful, and productive learning environment where each student can reach their full potential and contribute positively to the LATAM Global School educational community.
